102 - Logging Into OnDemand and SSH

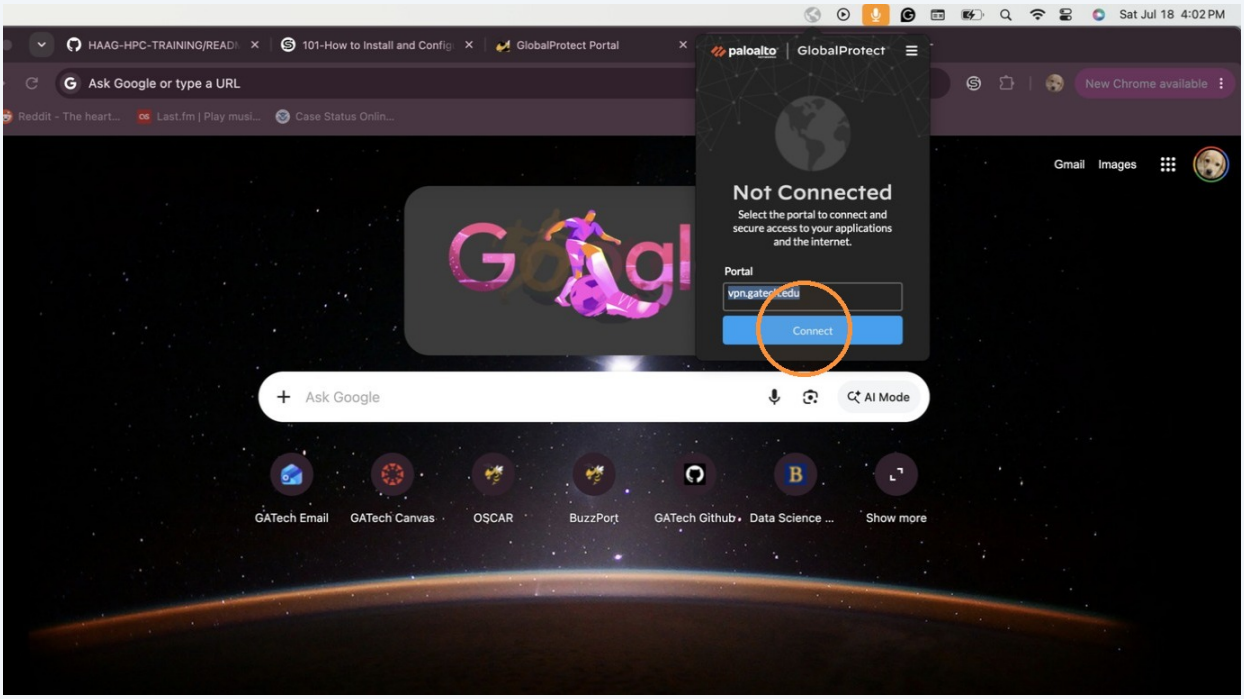

Learn how to connect to the PACE ICE high-performance computing environment through GlobalProtect and Open OnDemand. This guide walks you through authenticating your connection and accessing the web-based portal to manage your computational jobs.

VPN Connection

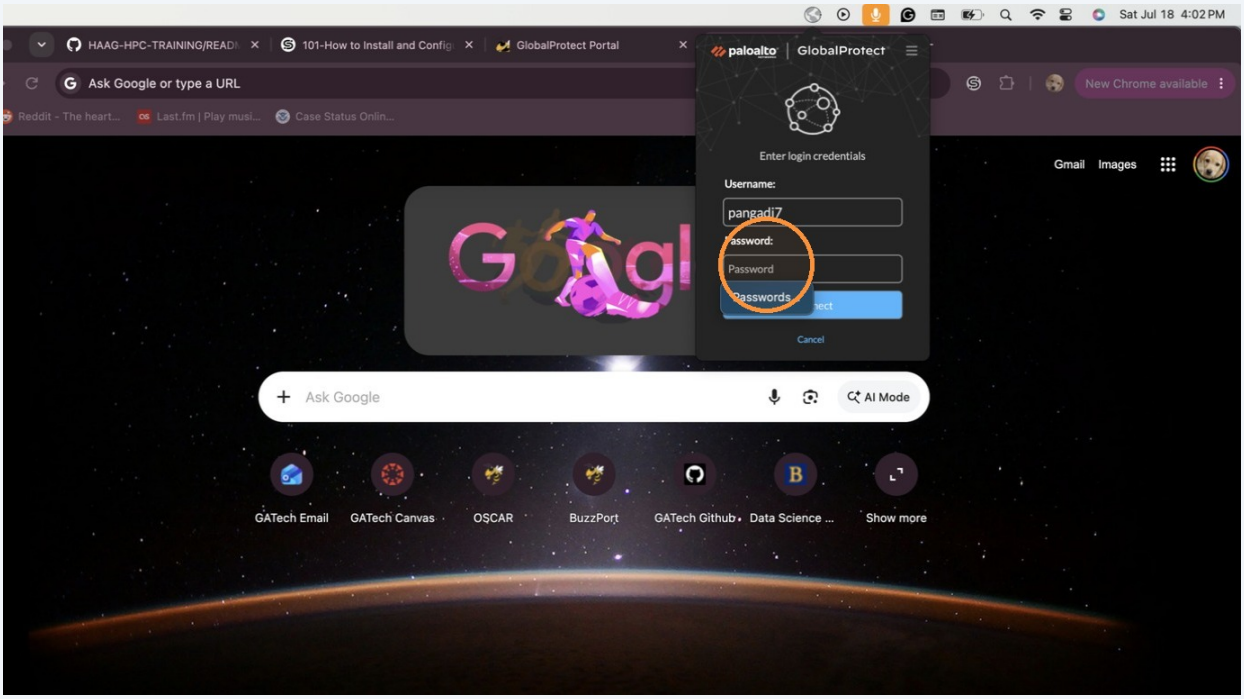

1 Open GlobalProtect from the menu bar.

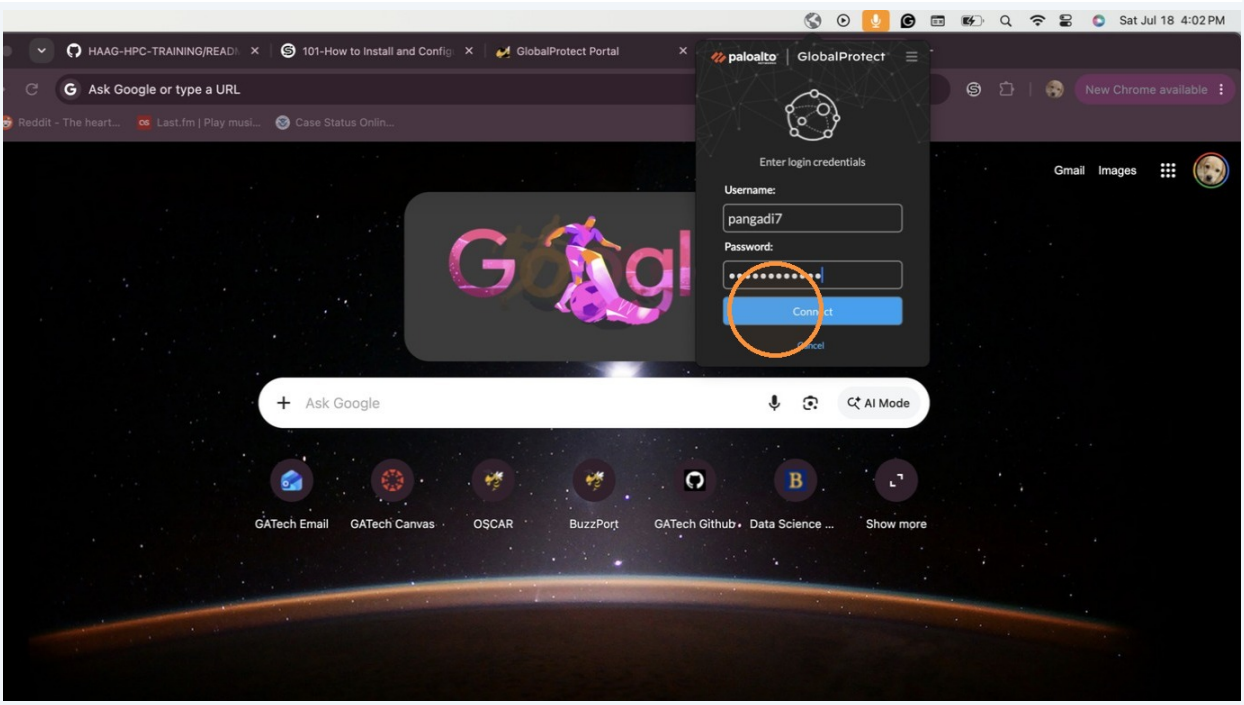

2 Click "Connect".

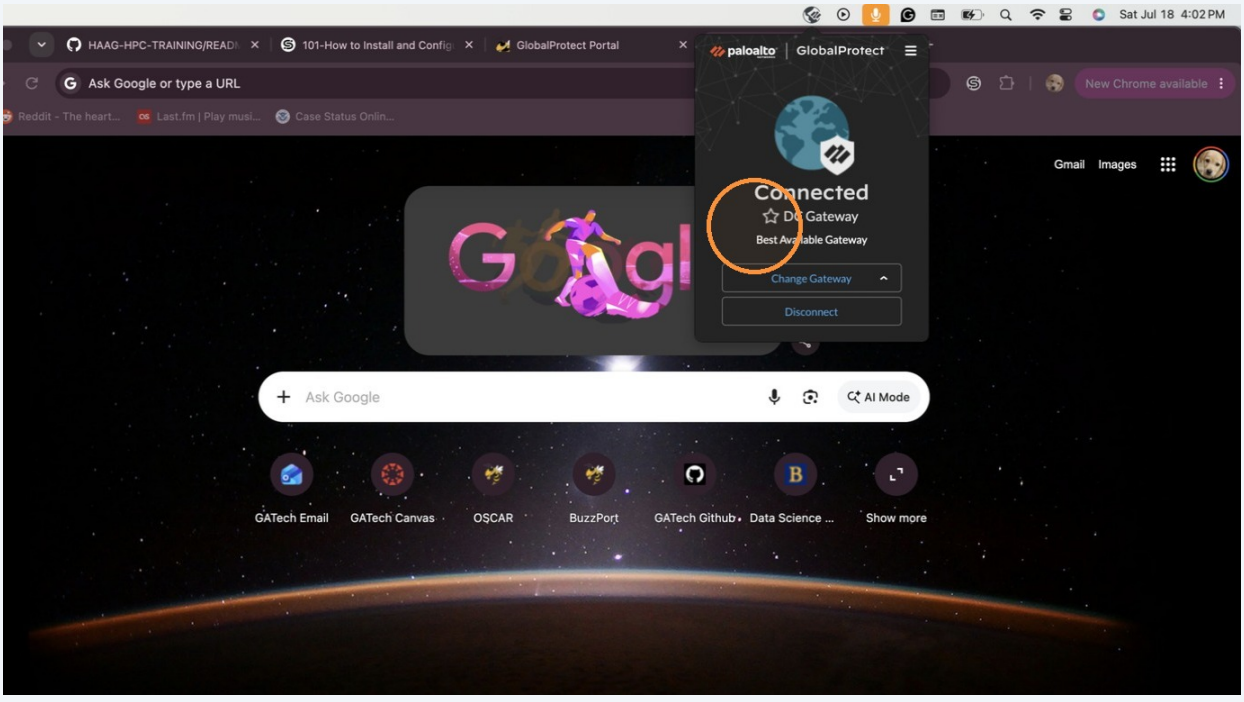

3 Enter your password in GlobalProtect.

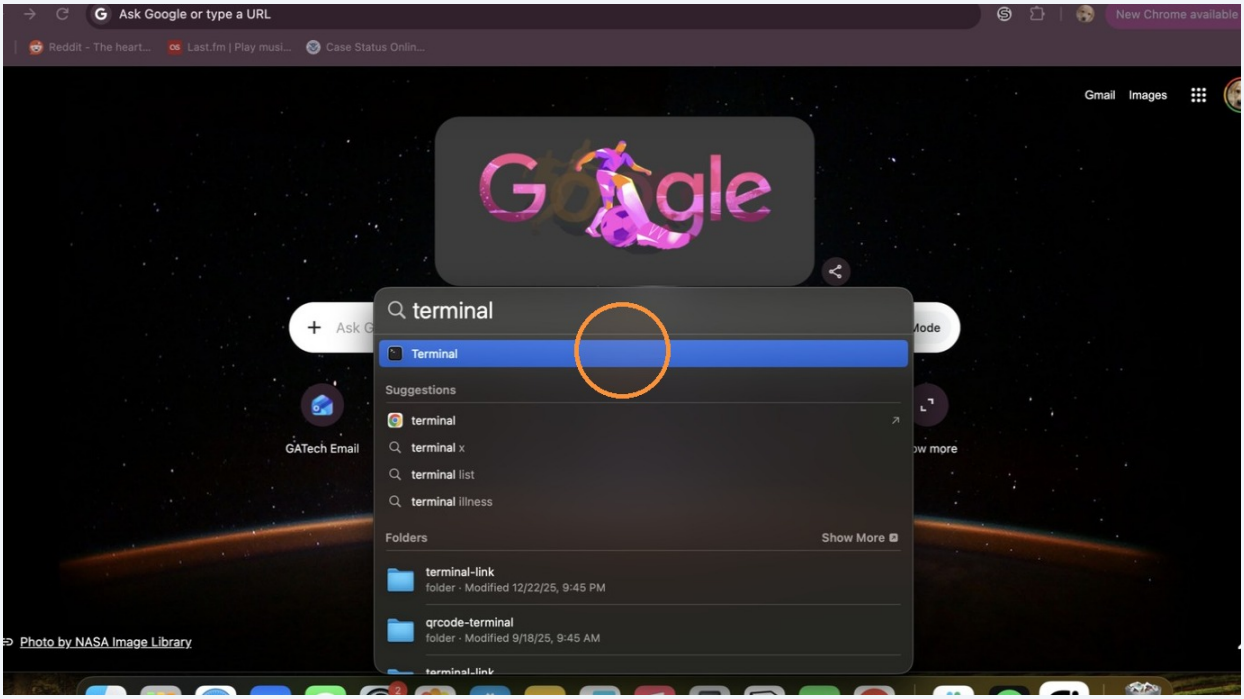

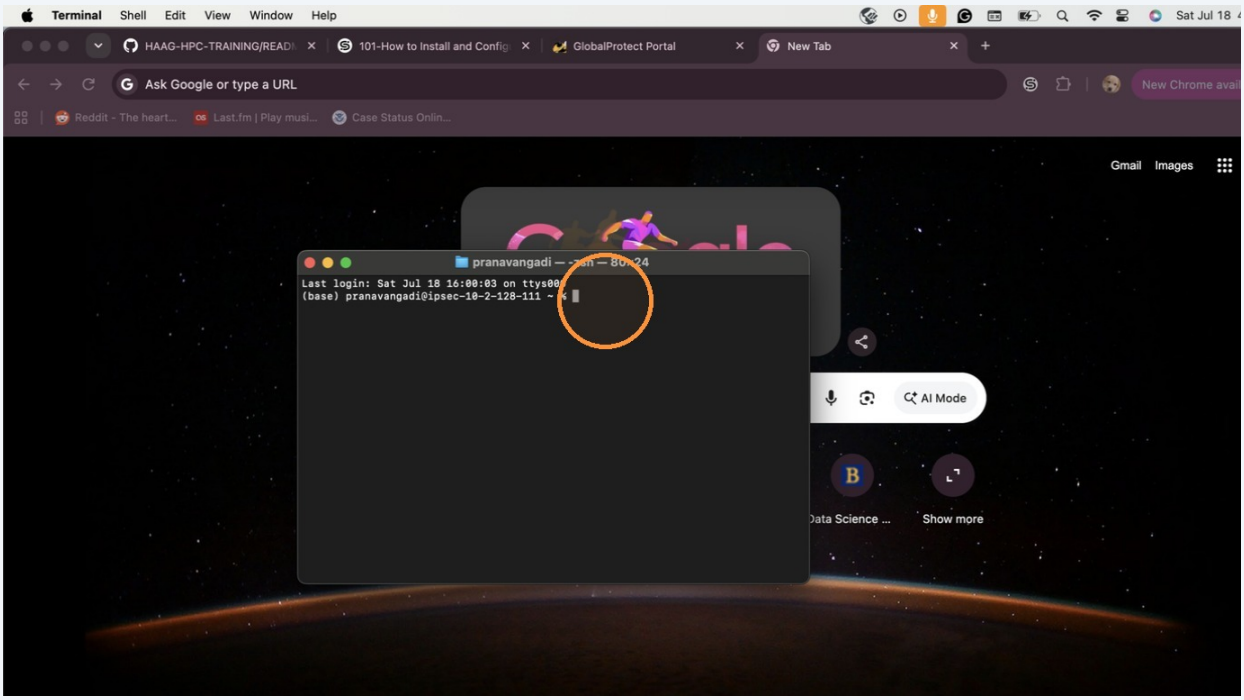

4 Click "Connect" again to establish the VPN connection.

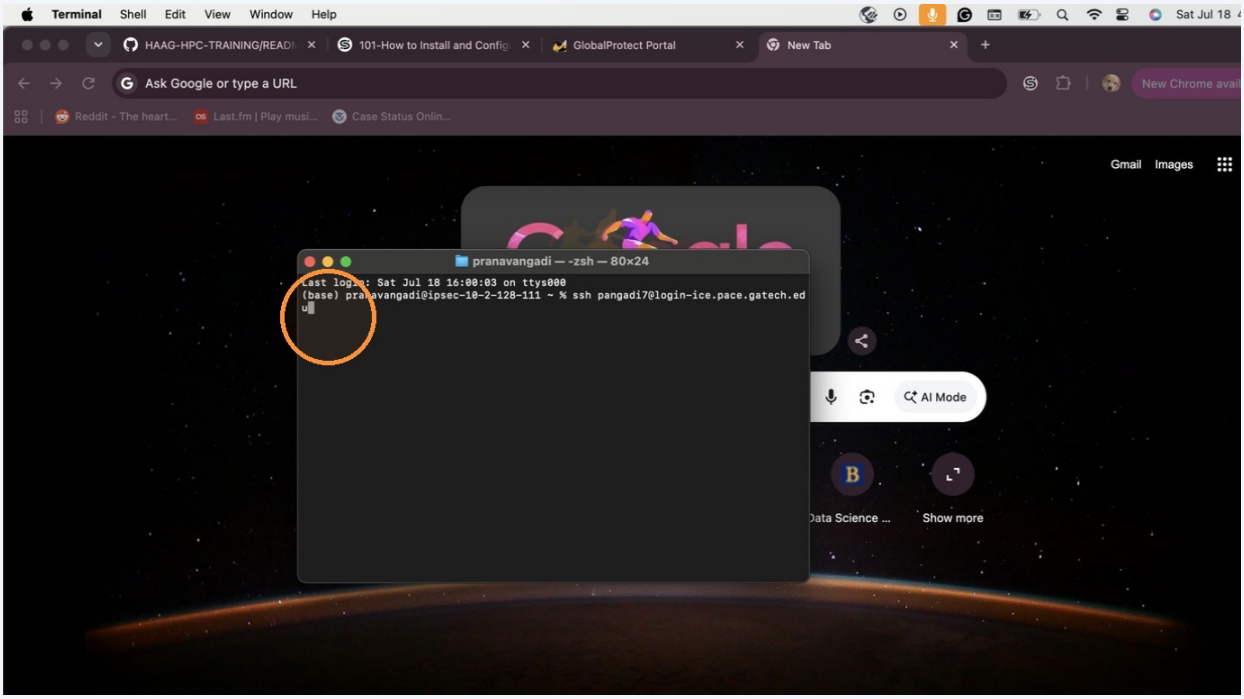

Server Access via Terminal

5 Search for "Terminal" and open the application.

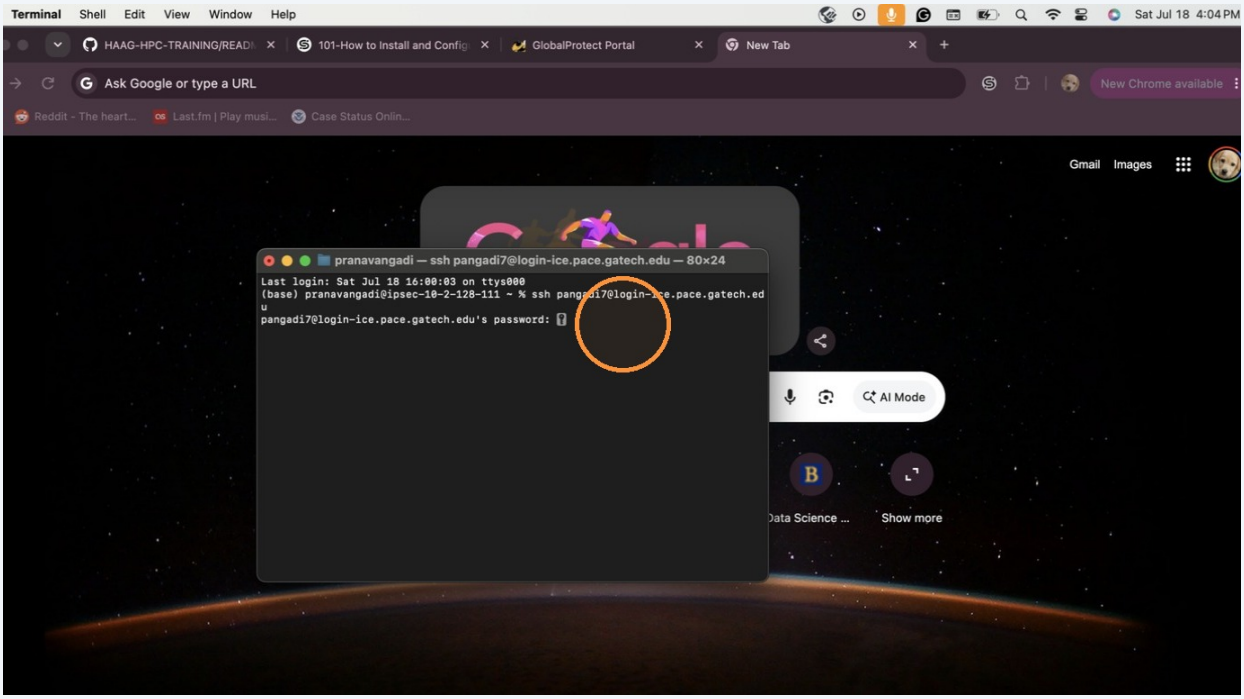

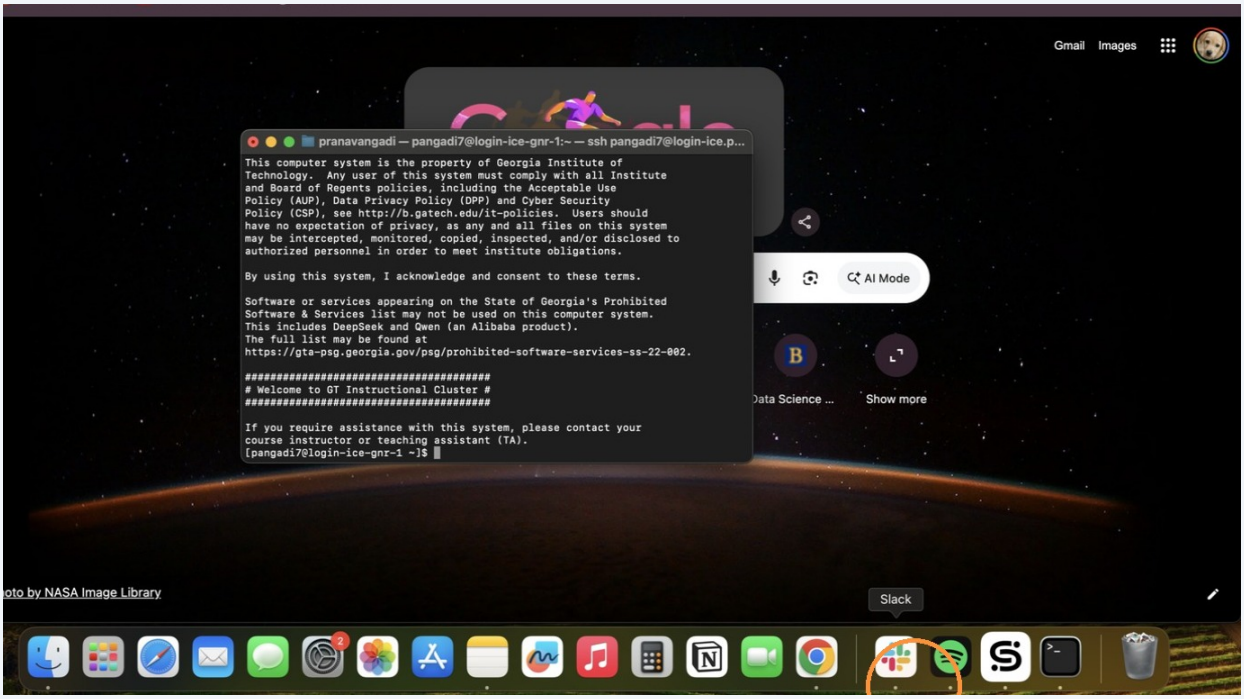

6 Type the SSH command: ssh username@login-ice.pace.gatech.edu and press Enter.

7 Type your password in the terminal window when prompted. Note: The password should be identical to your Buzzport password.

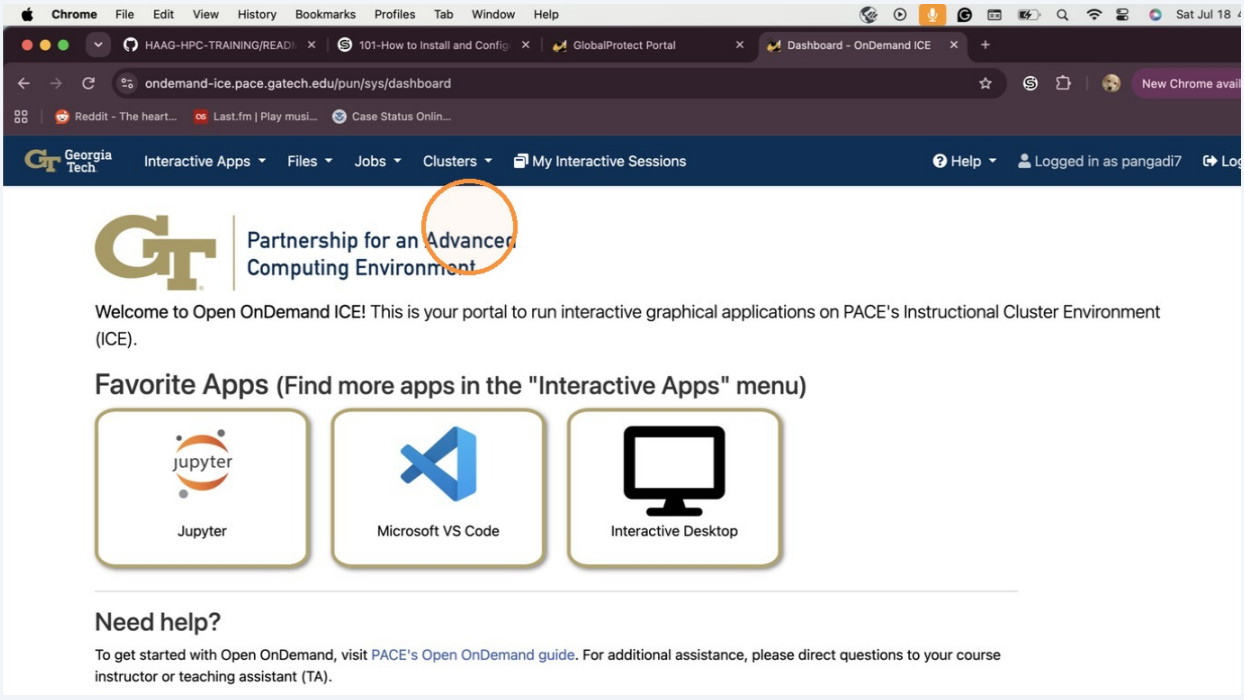

8 If you are successful, it should populate like so!

OnDemand Portal Navigation

9 To create Jobs and use GUI services, connect via https://ondemand-ice.pace.gatech.edu/ in your browser.

See the following link for more details on OnDemand and links to other compute clusters: **https://gatech.service-now.com/home?id=kb_article_view&sysparm_article=KB0042133**
